

To Whom It May Concern:

I am writing on behalf of the K-love ministry and radio station. I have been a financial supporter of the station for 3 years and cannot imagine losing access to this amazing radio station. My car radio is always tuned to 91.1 fm. I rely on its positive uplifting music and DJ's to keep me calm and safe while I am on the road. As a Christian I give my \$40 a month pledge as a way to contribute to our local mission field as well as our worldwide mission field. The ministry of K-love is a far reaching program that has no borders unless they are placed on them by this new FCC proposal.

This Localism campaign that the FCC is proposing would be like removing all access to national television broadcasting giving priority to small local television programming instead. I can hear the uproar if such a move were to be made. By doing this you would in effect be creating an elitist system where only those who can pay for it can receive national programming. The radio has always been a powerful tool for providing freedom on the airwaves. How can you even consider removing this freedom from our world?

Please do not allow more freedoms to be taken away from those who cannot afford to pay for them. I fear the kind of country we would evolve into if such freedoms are lost.
